

Recipe of Love

Words and Music by Murray Weinstock

Don't wanna forget about our little friends,
Day after day, this fight never ends
Little critters left out in the cold,
Let's give them shelter from the storm.
I'm sitting here quiet, all my ducks in a row
'Cause I don't see them doesn't mean I don't know they're here.

Every day new critters arrive.
Without some love and care they just can't survive
All the elements beyond their control,
Lost and hungry for heart and soul.
If you've got hurting, let's call it the blues
I've got a recipe that you can use.

Chorus

Add love, one part
Stir with care, one heart
Watch it simmer, little friend
Love will shimmer in a perfect blend
All the ingredients for a simple Recipe of Love

Bridge

We share the City with so much life
Living legends fight trouble and strife
All life's a miracle big or small
All for one life, one life for all.

Chorus

Add love, one part
Stir with care, one heart
Watch it simmer, little friend
Love will shimmer in a perfect blend
All the ingredients for a simple Recipe of Love
All the ingredients for a simple Recipe of Love.
